NFit®

BELOW GROUND

BELOW GROUND

GENERAL INFORMATION

NFit® Below Ground is a nitrogen management aid that increases nitrogen availability and uptake, in addition to reducing nitrogen loss. NFit Below Ground is intended to be used as a penetrant to be used with anhydrous ammonia, liquid fertilizers, and liquid manures, and to be used as a supplement to a regular fertilizer program and may not, by itself, provide all nutrients required by crops and other plants.

DIRECTIONS FOR USE

Shake well before use.

Anhydrous Ammonia: 6 oz per 50 units of nitrogen

1. Operator must follow all anhydrous ammonia safety precautions.
2. Inject NFit Below Ground through liquid fill valve.
3. If pressure exceeds 150 psi, inject NFit Below Ground through the liquid withdraw valve.
4. Proper maintenance is required. Flush valve thoroughly with anhydrous ammonia. Coat fill valve thoroughly with a petroleum or silicone-based lubricant.

Apply treated anhydrous ammonia using conventional anhydrous ammonia application equipment.

Liquid Fertilizers: 64 oz per ton UAN (28%, 30%, or 32%)

NFit Below Ground may be mixed with liquid fertilizers such as aqua ammonia or other liquid ammoniacal or urea nitrogen fertilizers. Liquid fertilizers containing high levels of phosphate should not be used with NFit Below Ground. If pesticides are added to the tank mix in conjunction with liquid fertilizers, a compatibility jar test should be performed.

Liquid Manure: 24-32 oz per acre

NFit Below Ground may be mixed with liquid animal manures. NFit Below Ground may be applied to slurry pit or through an injection system as material is loaded into the applicator.

STORAGE AND DISPOSAL

Store in a cool, dry place in original container. DO NOT FREEZE. Keep container tightly closed. Do not reuse empty container. Triple rinse then offer for recycling or for disposal in a sanitary landfill, or by other means in accordance with local, state, and federal regulations.

PRECAUTIONARY STATEMENTS

Avoid contact with eyes and skin. Avoid breathing vapors or spray mist. Wear eye/face protection and protective gloves. Do not eat, drink, or smoke when using this product. Wash hands thoroughly after handling. Use adequate ventilation. Keep away from open flame. In case of fire, use dry chemical fire extinguisher to extinguish. FOR A SPILL, LEAK, EXPOSURE, OR FIRE INVOLVING THIS PRODUCT, CALL CHEMTREC (800) 424-9300 (24 HRS)

ACTIVE INGREDIENTS

Ca-Heteropolysaccharides	5.2%
Alkylarylpolyoxyethylene Glycols	22.0%
Other Ingredients	72.8%
Total	100.0%

WARNING: Harmful if swallowed.

FIRST AID

If in eyes: Hold eye open and rinse gently with water for 15-20 minutes. Remove contact lenses, if present, after 5 minutes and continue rinsing. If on skin: Take off contaminated clothing immediately. Rinse skin with water for 15-20 minutes. If symptoms persist, contact a poison control center or doctor for treatment advice. If swallowed: Contact a doctor or poison control center immediately. Do not induce vomiting unless told to do so by a doctor or poison control center.
