OptiFit®

COMPLETE

GENERAL INFORMATION

OptiFit Complete's 4-in-1 technology maximizes chemical effectiveness despite tough conditions, with all of the benefits of spray grade liquid AMS, modifed vegetable oil, non-ionic surfactant, and drift reduction.

OptiFit Complete incorporates a modified vegetable oil to help carry the chemical deeper into the canopy, improving deposition and penetration for a more uniform kill.

OptiFit Complete not only increases droplet spreading and leaf coverage, but simultaneously reduces drift. It also provides water conditioning ammonium sulfate to facilitate complete metallic ion bonding. The nitrogen in AMS also acts as an activator meaning chemical absorption is increased within the target pest. OptiFit Complete's nonphytotoxic formula is safe for in-crop spraying.

RATE RECOMMENDATIONS

Use Rates: By volume at 1.0% v/v (1 gallon per 100 gallons of spray solution) - 2.5% v/v (2.5 gallon per 100 gallons of spray solution)

Do not use at rates above 5% v/v.

DIRECTIONS FOR USE

Add OptiFit Complete first to agitating tank. For use with herbicides (including desiccants, insecticides, and fungicides). Prior to use, read all directions chemical label directions, and directions on this label. OptiFit Complete is not intended as a substitute for good agronomic practices, and sound application techniques must be used when spraying.

STORAGE AND DISPOSAL

Harmful if inhaled or absorbed through skin. Avoid contact with skin, eyes, or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco. Remove and wash contaminated clothing before reuse. Personal Protective Equipment: Wear chemical-resistant gloves, long-sleeved shirt and long pant, and shoes plus socks. Store in a well-ventilated place. Keep container tightly closed.

PRECAUTIONARY STATEMENTS

First Aid: *If on skin or clothing:* Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. *If inhaled:* move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. *If in eyes:* hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. *If injested:* call Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

PRINCIPAL FUNCTIONING AGENTS

Proprietary blend of water conditioner, drift control, surfactants, and modified vegetable oil..... 100%

APE and NPE Free

All ingredients are exempt from tolerance requirements under 40 CFR 180.1001(d)

Important: This product has demonstrated excellent plant safety; however, not all species and varieties have been tested. Before treating a large area, treat a small area and observe prior to full scale application.

LIMITED WARRANTY: Streamline Ag warrants that the Product conforms to the chemical description given on this label and is reasonably fit for the purpose stated when used in accordance with label directions under normal conditions of use. Streamline Ag and Seller make no other warranties, express or implied, including warranty of merchantability or fitness for a particular purpose. Buyer and User accept all risks arising from any use of this Product. To the extent allowed by law, Streamline Ag and the Seller shall not be liable to the Buyer or User of this Product for any consequential, special, incidental or indirect damages.
