OptiFit®

H_2O

GENERAL INFORMATION

OptiFit H_2O is a convenient-to-use low foaming premix of ammonium sulfate, nonionic surfactant, dispersant and sugar release technology to help condition hard water and drive herbicide uptake and translocation. This product helps improve weed control with glyphosate and glufosinate applications by conditioning water in the tank mix. Sugar Release Technology increases uptake and translocation of herbicide to increase performance.

DIRECTIONS FOR USE

This product may be used at a rate of 1.25-5.0% v/v. 2.5-5.0 gallons per 100 gallons of spray solution. Follow herbicide label for specific rates, mixing instructions and other precautionary instructions.

This product provides:

- 2.8 pounds of dry ammonium sulfate per gallon.
- 1 pint of nonionic surfactant in a 1.25 gallon per 100 gallon use rate.

Compatibility: This product is compatible with most pesticides. However, if the desired combination has not been previously used, a compatibility test is recommended.

Mixing: Fill spray tank half full of water and begin agitation. Add pesticides as directed by label or in the following sequence and continue filling tank: (1) dry flowables or water dispersing granules, (2) wettable powders, (3) flowables, (4) solutions, (5) emulsifiable concentrates. Continue agitation until spray solution is completely mixed. Add the recommended amount of this product. Continuous agitation of finished spray is recommended. If spray solution has been allowed to stand, thoroughly agitate and remix before application.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in closed, original container away from children, animals, foods, feeds, seeds and incompatible materials. Handle in accordance with Precautionary Statements. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent material. Scrape up and dispose in accordance with Product Disposal.

Product Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www. acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

PRINCIPAL FUNCTIONING AGENTS

Ammonium Sulfate, Alkyl Polyglucoside, Alkyl Pyranoside Derivates, Alkyl Phosphate Ester, and 1,2,3 Propanetriol	50%
Inert Ingredients	50%
Total	100%

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals:
WARNING: Causes eye irritation. Wash thoroughly after handling.

Environmental Hazards: Avoid release to the environment.

First Aid: Have the product container or label with you when calling a poison control center or doctor or going for treatment. *If in eyes:* Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.

LIMITED WARRANTY: Streamline Ag warrants that the Product conforms to the chemical description given on this label and is reasonably fit for the purpose stated when used in accordance with label directions under normal conditions of use. Streamline Ag and Seller make no other warranties, express or implied, including warranty of merchantability or fitness for a particular purpose. Buyer and User accept all risks arising from any use of this Product. To the extent allowed by law, Streamline Ag and the Seller shall not be liable to the Buyer or User of this Product for any consequential, special, incidental or indirect damages.
