OptiFit®

NIS

NIS

GENERAL INFORMATION

OptiFit NIS is a blend of nonionic surfactants and super wetting organo-siloxane surfactants that provide superior spreading and dramatically reduces surface tension in spray solutions resulting in improved wetting of leaves and other parts of plants. This product also improves uptake through penetration of cuticular waxes and stomatal flooding.

DIRECTIONS FOR USE

Rate: 1-2 quarts per 100 gallons of water. Read and follow the precautions, restrictions, and recommendations on the labels for pesticides used with this product. Use according to the most restrictive label directions for each product in any tank mix. This product may be used on agricultural, forestry, turf and ornamental and non-crop land sites.

Compatibility: This product is compatible with most pesticides. However, if the desired combination has not been previously used, a compatibility test is recommended.

Mixing: Fill spray tank half full of water and begin agitation. Add pesticides as directed by label or in the following sequence and continue filling tank: (1) Dry flowables or water dispersing granules, (2) Wettable powders, (3) Flowables, (4) Solutions, (5) Emulsifiable concentrates. Continue agitation until spray solution is completely mixed. Add the recommended amount of this product. Continuous agitation of finished spray is recommended. If spray solution has been allowed to stand, thoroughly agitate and remix before application.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in closed, original container away from children, animals, foods, feeds, seeds and incompatible materials. Avoid release to the environment. Handle in accordance with Precautionary Statements. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent material. Scrape up and dispose in accordance with Product Disposal.

Product Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. Decontaminated containers may also be disposed of in a sanitary landfill.

PRINCIPAL FUNCTIONING AGENTS

Polyether Modified Siloxanes and Polyvinyl Alcohol	90%
Constituents Ineffective as Spray Adjuvant	10%
Total	100%

APE and NPE Free
All ingredients are exempt from tolerance requirements under 40 CFR 180.1001(d)

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: May cause skin and eye irritation. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/clothing and eye/face protection. Wash thoroughly after handling.

Environmental Hazards: Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

First Aid: Have the product container or label with you when calling a poison control center or doctor or going for treatment. *If in eyes:* Rinse cautiously with water for several minutes. If eye irritation persists, seek medical attention. *If on skin:* Remove contaminated clothing and wash all exposed skin with water for at least 15 minutes.

LIMITED WARRANTY: Streamline Ag warrants that the Product conforms to the chemical description given on this label and is reasonably fit for the purpose stated when used in accordance with label directions under normal conditions of use. Streamline Ag and Seller make no other warranties, express or implied, including warranty of merchantability or fitness for a particular purpose. Buyer and User accept all risks arising from any use of this Product. To the extent allowed by law, Streamline Ag and the Seller shall not be liable to the Buyer or User of this Product for any consequential, special, incidental or indirect damages.
