CarbonFit

SOYBEANS powered by loam

SOYBEANS

GENERAL INFORMATION

CarbonFit Soybeans is a live microbial inoculant designed to increase soil carbon. It is a dark septate endophytic fungus known to colonize and form symbiotic associations with plant roots. CarbonFit Soybeans is a combination flowability agent and microbial inoculant designed to work in current operating systems.

RATE RECOMMENDATIONS

The recommended rate is 1 level scoop per unit of soybeans (140K seeds/unit).

DOSING: Measuring scoop enclosed. 1 level scoop treats one unit. One 10 pounds pouch of product treats 50 seed units of Soybean seed.

MIXING AND HANDLING INSTRUCTIONS

For maximum performance, ensure product is mixed throughout seed. Ideally, add flow agent as seed is filling central hopper at the base of the auger and/or conveyor.

If using individual row units, mix the product into seed with a power drill or manually stir thoroughly.

APPLICATION: For optimal performance, plant seed within 48 hours of application.

PRECAUTIONARY STATEMENTS

DO NOT ingest or inhale. Avoid contact with skin and eyes. Wash hands before eating, drinking, chewing gum.

Masks should be used to prevent dust inhalation. Remove personal protective equipment immediately after handling the product.

Storage and Handling: Preferred storage is at 39 degrees fahrenheit or 4 degrees celsius, do not freeze.

CarbonFit Soybeans contains live organisms of the naturally occurring fungus Leptodontidum orchidicola, which may be damaged when exposed to high temperatures. The live organisms require specific storage conditions to ensure viability and product performance. To maintain product viability:

- If refrigeration is unavailable, store unopened containers in a dry cool place (less than 68 degrees Fahrenheit or 20 degrees Celsius) for no longer than 4 calendar weeks.
- Keep out of direct sunlight.
- Minimize temperature fluctuations.
- Store in well ventilated buildings, away from foodstuffs and animal feed.
- Keep out of reach of children.

GUARANTEED ANALYSIS

Leptodontidum orchidicola ..... $1x10^4$ CFU/g

Also Contains Non-Plant Food Ingredients
50% Total Other Ingredients (inert as non-plant food ingredients)
